

Hunter Mini-Clik

Hunter

The Hunter Mini-Clik is a precipitation sensor. The irrigation controller will be switched off when precipitation between 3 to 25mm is detected, saving water consumption in the process. The Hunter Mini-Clik is suitable for many Hunter controllers, including the X-core and PRO-C controller. The sensor is easy to setup and install.

APPLICATION

Small area open field outdoor crops, landscaping

CHARACTERISTICS

- ✓ Switch off irrigation system automatically during rain
- ✓ Precipitation level set from 3 to 25 mm
- ✓ Reliable, durable and compatible with many Hunter controllers
- ✓ 5 years factory warranty

TECHNICAL DATA

Dimensions	: 5 cm (H) / 15 cm (L)
Current	: 5A (24 VAC)
Wiring	: 60 cm 2x20 AWG shielded, UL-approved
Norm	: UL, cUL, FCC, CE, RCM
Warranty	: 5 years
Material	: Polymer housing
Options	: Stainless steel Mini-Clik-sensor cover : gutter mounting with wing nut : Clik-delay
