

Monoflat

The Monoflat is a new flat roll-up hose for drip irrigation systems, with a unique PVC layer structure.

APPLICATION

In combination with, for example, Streamline X dripline, the Monoflat provides a mobile low-pressure pipe system

CHARACTERISTICS

- ✓ 4 diameters
- ✓ Layer structure with optimal adhesion of inner and outer layer
- ✓ High elongation resistance, reduced longitudinal stretch under pressure

TECHNICAL DATA

Diameter	: 2" to 6"
Max. working pressure	: 3.5 to 6.5 bar
Bursting pressure	: 10 to 17 bar
Temperature range	: -10 to +50° C
Colour	: blue
Material	: PVC (external/internal)
Roll length	: 50 or 100 meters

Dimensions and weight

Diameter	Inner diameter (mm)	Weight (g/m)	Maximum pressure (bar)
Monoflat 2"	52	280	6,5
Monoflat 3"	78	475	5,0
Monoflat 4"	103	700	4,0
Monoflat 6"	155	1155	3,5

INSTALLATION & MAINTENANCE

- ✓ To extend the life of the Monoflat, we recommend hanging the hose out after use, then storing it when dry.
- ✓ The connection to the Monoflat can be realized with the Flexnet FXN coupling.
