

Spray head pop-up holder

Hunter

The Hunter spray head pop-up holders are predominantly used in borders and smaller lawns. The Hunter spray head pop-up holders are available with various pop-up heights from 6.3 cm to 30 cm. The MP Rotator pop-up nozzle has to be ordered separately (and provides a constant distribution of the water).

APPLICATION

Park and garden irrigation

CHARACTERISTICS

- ✓ 4 different pop-up heights
- ✓ Robust, dirt-resistant design with no leaks
- ✓ Easy-to-use pull ring

TECHNICAL DATA

Types / Pop-up height	: PROS-02 (2" = 6,3 cm)
	: PROS-04 (4" = 10 cm)
	: PROS-06 (6" = 15 cm)
	: PROS-12 (12" = 30 cm)
Maxim. pressure	: 7 bar
Material	: High-quality polymer
	: Stainless steel
	(spring mechanism)
Connection	: ½" female thread
Options	: pressure-regulating effect (PRS) at 2.0 and 2.8 bar
	: shrub adapter
	: SI (Side Inlet) at 15 and 30 cm pop-up height
	: backflow preventer

INSTALLATION & MAINTENANCE

- ✓ Ensure that the system is drained before the frost period.
- ✓ A so-called shrub adapter is also available. This adapter makes it possible to mount an MP rotator on a curb with a ½" BSP male thread. The adapter has internal ½" BSP threads and an external "ACME" thread for the MP rotator.
