

Geva-75 irrigation controller

Baccara-Geva

No longer available

The Geva-75 is a stand-alone irrigation controller for 1 valve. The irrigation timer has 3 program options for activating the coil. The controller is powered by 1 single 9 V Duracell battery and is at least 1 year maintenance-free. It can operate with any valve equipped with 3/4" UNEF screw thread for the solenoid.

APPLICATION

Garden and park irrigation

CHARACTERISTICS

- ✓ 3 program options (P1: daily at the same time, P2: daily, on certain days, P3: 3 starting times per day)
- ✓ Clearly arranged LCD screen with 4 keypads
- ✓ Water and dust-tight (IP67)
- ✓ Different mounting possibilities for wall or valve mounting
- ✓ Suitable for various valves with 3/4" UNEF screw thread (for Dorot / Baccara solenoids)

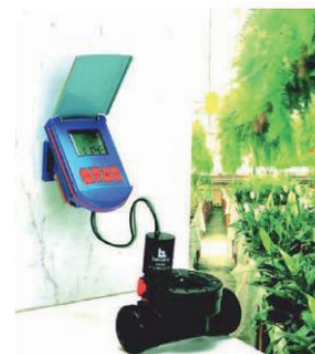

TECHNICAL DATA

Battery	: 9V version
Coil	: G75 2W NC solenoid (pulse/latch)
Temperature range	: -10 to 60 °C
Material	: polymer
To be combined with	: Dorot 75 (2-way) : Dorot 80 (2-way) : Dorot 95/96
Marking	: CE

INSTALLATION & MAINTENANCE

- ✓ Install maximum 1m from the valve
- ✓ Cable extension is not allowed with latch solenoids

Wall mount

Valve connection
