

# ZPE pipe with KIWA certification

Netafim is a certified producer of ZPE pipe with KIWA certification, recognisable from the blue stripe, that are used for drinking water distribution in public and private networks. The ZPE pipe is frequently used for the smaller sizes and is more flexible than PE100 pipe with KIWA certification and is therefore easier to install. Drinking water applications must be KIWA-certified.

## APPLICATION

Only pipe with KIWA marking (blue stripe) may be used in drinking water pipes. Use also fittings with KIWA certification for assembly.

## CHARACTERISTICS

- ✓ KIWA-certified ZPE pipe
- ✓ Available in smaller sizes: 16 to 63 mm
