

# DAN rotors

## DAN ROTORS

Three available rotors which determine the spray pattern. Suitable for all modular DAN sprinklers with bridge.

### Green (8991)

- ✓ Diameter up to 12 meters, depending on height, nozzle and installation direction
- ✓ Allow 30 cm free space with downward installation
- ✓ Can also be installed upright

### Orange (8966)

- ✓ Diameter up to 12 meters, depending on height, nozzle and installation direction
- ✓ Can also be installed upright

### Black (8955)

- ✓ Diameter up to 8 meters, depending on height, nozzle and installation direction
- ✓ Sprinkler has a downward discharge
- ✓ Can also be installed upright
